COLOR CONDITIONER

UK:

HH Simonsen Color Conditioner offers two-way protection for colored hair. Active ionic enzymes preserves the color by closing the hair cuticles and slows down the fading process, while keratin and aminoacids strengthens and nourishes the hair that is often prone to damage because of the coloring. Apply to wet hair and rinse.

DK:

HH Simonsen Color Conditioner giver dobbelt beskyttelse til farvet hår. Aktive ioniske enzymer modvirker, at din hårfarve falmer hurtigt ved at lukke for hårets skællag, og keratin og aminosyrer styrker og nærer samtidig håret, der ofte kan tage skade af hårfarvning. Påføres i vådt hår og skylles ud.
